

Hans Zigmund

For more than a decade Hans has held a variety of positions in Illinois state government including staff Research Economist at the Department of Revenue and later Associate Director at the Governor's Office of Management and Budget before becoming Chief Economist at the Illinois Department of Revenue. Hans and his staff are responsible for state revenue forecasts, data analytics for tax administration, tax expenditure estimates, legislative analysis and fiscal notes. In private industry Hans worked as an economist for AMCA International and as a business analyst with Hewitt Associates. In academics, Hans has taught Introductory Micro and Macroeconomics at Prairie State College and Elgin Community College as well as Introductory Statistics, Public Finance and Economics for Decision Makers at Roosevelt University. Hans earned his MA in Economics from Roosevelt University in 2004, and BA in Economics from Barat College in Lake Forest. Hans served six honorable years in the United States Navy before college.
